

1.2 DEVELOPS SENSE OF SELF

15.3 DEVELOPS UNDERSTANDING OF OBJECT PERMANENCE

## SUPPLIES

- CD, track 9
- Balls
- Blanket

# I Lost My Egg

How does the child express like or dislike when held or touched?

## Young Infant

Sit with the child on your lap and roll a ball on the child's leg.

### READY?

Play the song. Gently massage the child's leg or arm with the ball. Observe how the child responds to the pressure and follow his cues.

## Older Infant

Sit with the child and show him a ball.

### READY?

As the child plays with the ball, listen to the song. Use another ball and hide it under a rug or blanket. Reveal the ball during the "egg rolls down your leg" verse and put it on the child's leg. Extend the play according to his expressed interest.

## Young Toddler

Sit with the child and roll a ball or hard-boiled egg toward him.

### READY?

Explore rolling the ball on the floor and then on different body parts. Listen to the song and play Hide and Seek with it. How else does the child want to explore the ball?
